

➤ Security as a Service

Leading Technology Meets Award-Winning Expertise

24/7/365 monitoring comprised of Managed Detection & Response (MDR+) and Threat Intelligence Team.

Validated threat alerts provide easy-to-understand context and next steps.

Transparent reporting, data, and real-time visibility into your cyber infrastructure.

Ongoing threat detection intelligence updates ensure sustained protection over time.

Immediate, guided response contains and eliminates validated threats.

Options to retain user, system, and event logs to aggregate the largest possible data pool.

It's as Simple as One, Two, Three.

Safeguard your organization with 24/7 managed detection and response, cybersecurity expertise, a strategic, human-led process, and much more.

- 1. Seamless Integration:** Our MDR+ integrates with your existing security tools to optimize your current technology investments, resulting in a scalable solution.
- 2. Your Security is our Priority:** Our partnerships are founded on collaboration and your trust. Together, we identify responsibilities and create a Runbook for swift and informed threat and response.
- 3. Experience Peace of Mind:** From ongoing cyber awareness training for your staff to dark web monitoring, Security as a Service has you covered. Rest easy knowing that your business is safeguarded today, prepared for future challenges, and fully compliant.

The Time to Act is Now.

Approximately one cyberattack occurs every 39 seconds.

If your organization is subject to regulatory constraints, such as PCI, HIPAA, GDPR, or other compliance mandates, the risk is even greater.

Our approach to cybersecurity is tailored to your risk profile and compliance needs, ensuring the protection of your network and critical assets.

Need help determining your risk or compliance requirements? Let's talk.
